

ref. 99016576

RESCUE CUSHION TYP10 WITHOUT BOTTLE

TENTEN, AFSCHERMINGEN EN SPRINGKUSSENS

Dimensions - mounted (LxWxH): approx. 3500 x 3500 x 1700 mm

After a jump, the bouncy cushion is ready for action within 10 seconds.

Excluding compressed air bottle

DESCRIPTION

The rescue cushion consists of a waterproof, airtight and fire retardant tarpaulin, applied around a structure inflatable with compressed air. The cube-shaped tubular structure is interconnected. The cushion is divided horizontally into 2 chambers for better pressure distribution.

Incredibly quick and easy (+/- 30 seconds) to set up with minimum staff and with 1 compressed air bottle 6l/300 bar. The pillow is ready to use again within 10 seconds after a jump for the next jump.

Complies with DIN 14151-3 for use in fire services and with applicable occupational safety regulations.

TECHNICAL SPECIFICATIONS

- After a jump, the bouncy cushion is ready for action within 10 seconds.
- 2 air chambers on top of each other: Tubular structure connected to each other
- Inflatable with compressed air bottle 6 l / 300 bar
- Material tarpaulin: airtight and flame retardant coated tarpaulin
- Dimensions - mounted (LxWxH): approx. 3500 x 3500 x 1700 mm
- Dimensions - packed (LxWxH): 900 x 550 x 300 mm
- Setup time: approx. 30 seconds
- Weight: approx. 45 kg
- Includes: storage bag with quick-release fastener and carrying straps
- Standardisation: DIN 14151-3
