FIRE-EX CLEANING LANCE 2 "M

ZEPEN

DESCRIPTION

Nozzle FIRE-EX with built-in refillable cartridge holder.

Suitable for the easier penetration of water into porous substances thanks to the breaking through of the surface tension; or for cleaning surfaces with heating oil, oil and/or petrol residues.

A soap cartridge of 750 grams serves for 3,000 to 3,500 litres. This equates to approximately 45 minutes at 0.02% mixing ratio. The soap cartridges are non-toxic and not environmentally harmful according to EC directives. The cartridges are biodegradable.

Supplied without soap cartridges.
