V-STRUT VEHICLE STABILISATION

STUTTEN EN STABILISEREN

Lightweight : easy to carry, easy to handle

Quick installation in just 15 seconds

DESCRIPTION

The V-Strut is specially designed to stabilize any type of car quickly, easily and safely.

Equipped with an integrated head, non-slip base plate and lashing strap with hook and ratchet mechanism, this all-in-one strut is ready for immediate use.

Although the V-Strut has a high prop capacity of 16 kN, it weighs only 7.2 kg. It is therefore easy to carry and handle.

An auto-lock system with precise length adjustment ensures that you can install the system very quickly. Simply pull out the strut to the desired length and it locks automatically. This allows you to position the V-Strut precisely, whether the car is on its side or on the roof.

TECHNICAL SPECIFICATIONS

- All-in-one system: Vehicle stabiliser strut with integrated head, base plate and lashing strap with hook and ratchet mechanism
- Unique auto-lock system: Pulling out and automatic locking in one movement
- Push and pinch mechanism to quickly unlock the strut after use
- Toothed multifunctional head for optimum grip
- Lashing strap with hook and ratchet mechanism to quickly create a stable triangle
- Lashing strap reel prevents tying and allows compact storage
- Sliding heat resistant protective cover to protect lashing strap from hot exhaust

- Max axial load: 16 kN (1.6 tonnes)
- Min effective length: 1080 mm
- Max effective length: 1800 mm
- Number of steps: 24
- Step size: 30 mm
- Lashing strap dimensions: 5 m x 50 mm
- Dimensions: 1080 x 149 x 210 mm
- Weight: 7.9 kg
