

ref. 99072627

SMOKE STOPPER RSS F80-PRO WITH BAG

ROOKSTOPPERS

DESCRIPTION

The mobile smoke screen can be used in door frames and other suitable wall openings. It prevents the spread of smoke and heat to parts of the building that are not directly affected by the fire.

The pro version is equipped with a special pull rod for frequent use. With the integrated spring mechanism in the tie rod, this version can be pre-tensioned for easier and quicker installation in the door frame.
