BATTERY PBPA287 PENTHEON

HYDRAULISCH REDDINGSMATERIAAL PENTHEON

Minimum service life: 500 cycles

Capacity: 7 Ah

Energy: 176 Wh

Charging time: 60 min on charger, 95 min on tools

Degree of protection: IP67

DESCRIPTION

Specially designed battery for Homatro Pentheon tools. Can be charged both on the charger and on the tool. The battery on the tool has priority over the battery of the charger. So there is no need to think about whether or not to change batteries after an intervention. Efficient battery management! In addition, the batteries have extra powerful and large cells, which means that the battery warms up less quickly and, as a result, it is possible to work longer at maximum capacity.

Via the LED lights on the battery you also get real-time feedback on the temperature and charge status of the battery without pressing any buttons. Although the battery has an integrated on/off switch for the tool, there is no voltage on the contacts until the battery is connected to the tool. The battery can therefore be placed in a puddle of water without risk. Finally, the battery is also suitable for underwater use.

TECHNICAL SPECIFICATIONS

- Real-time diagnostics of temperature and battery charge status
- Suitable for on-tool charging or via charger
- Integrated on/off switch
- No voltage on contacts when battery is not connected
- Safety devices: Microprocessor controls battery charging; Protection against short circuit and reverse polarity; Recognition of defective battery; Protection against increase in battery pressure; Dynamic adjustment of charging current; Automatic voltage detection; Over and under voltage protection.
- Battery type: Li-Ion
- Voltage: 28V DC
- Capacity: 7 Ah
- Energy: 176 Wh
- Minimum service life: 500 cycles
- Charging time: 60 min on charger, 95 min on tools
- Degree of protection: IP67
- Dimensions (LxWxH): 188 x 107 x 110 mm
- Weight: 1.5 kg

TO CONNECT

- 99072900: battery charger PBCH1
- Pentheon tools
