BATTERY CHARGER PBCH1 PENTHEON

HYDRAULISCH REDDINGSMATERIAAL PENTHEON

Suitable for on-tool charging
3 chargers connectable one after the other

DESCRIPTION
Battery charger, AC version for Holmatro Pentheon batteries. Via various LED lights, the charger provides instant feedback on the battery's charge level and state of health. It is also possible to connect three chargers in a row and feed them through a single socket. Each charger is also equipped with a cable that allows for on-tool charging. The battery on the tool always has priority over the battery on the charger. The battery on the charger is not recharged until the battery on the tool is full. Therefore no need to think about whether or not to change batteries after an intervention. Efficient battery management! 3 battery chargers and 3 tools can be connected to one socket, so you can charge a total of 6 batteries without any management.

TECHNICAL SPECIFICATIONS
- Real-time diagnostics: Immediate feedback on the charge level and condition of the battery through indication via LED lights.
-Three chargers can be connected and powered from a single socket.
- Charger suitable for on-tool charging
- Included: power cable with plug type F

- Battery voltage: 28 V DC
- Mains voltage: 100-240 VAC
- Mains frequency: 50-60 Hz
- Max current: 3.3 A
- Power output: 300 W
- Power cable with plug type F
- Power cable length: 1.8m
- Dimensions (LxWxH): 222 x 170 x 153 mm
- Weight: 1.6 kg

TO CONNECT
- 99072896: daisy chain charging cable
- 99072897: on-tool charging cable POTC1 Pentheon
- 99072894: PBA287 Pentheon battery
